

Snookerhost – Entering Team Results

Logging In

Only the Home team can enter a result, and you can enter the result for your current match from the day following the match until midnight on the day as advised by your League Administrator. On entering and saving the result, the web site will be automatically updated, so you will immediately see your result and associated statistics on there.

To enter a result, open your Internet browser and from the League web site click on the 'Results' link in the horizontal link bar. Alternatively, go directly to the address <http://www.snookerhost.co.uk/results/login.asp>

Enter the username and password that has been provided to you and click on 'Login'.

The current match that you need to enter the result for will be displayed. To enter the result, click on the 'Frames' link...

Match

	Home	Frames	Points	Points	Frames	Away	Date	L
Frames 	Baize and Glory	0	0	0	0	Rayleigh Lanes	7/6/2023	T

A grid is presented with each frame.

Click on the 'Grid Edit' button at the bottom of the grid.

You can also select a player by typing in the first few letters of their surname.

You can use the <Tab> or mouse to move into the next field to enter the players frame points score, repeat for the away score and the away player name.

Repeat for each line in the match.

Once you have entered the frame scores click on the 'Tick' to save. The Save action will update the Match score and all other statistics on the web site.

If you made an error simply repeat the process.

When you have completed entering the result and any breaks (see next page), close the site correctly by clicking on the Log Out link at the person shadow box on the top right.

Entering Breaks

Breaks over 30 should be entered and these are entered after the frame results are complete. To enter breaks, click on the 'Breaks' link corresponding to the line where the break was made...

	Home	Frames	Points	Po
Breaks 0		0	0	0
Breaks 0		0	0	0
Breaks 0		0	0	0
Breaks 0		0	0	0

In the Breaks screen click on the

'Plus' button

The break edit boxes for Home and Away breaks are displayed; enter the break corresponding to either the Home or Away player, leave as 0 if only one player had a break.

If both players had a break fill in the Home & Away break.

After entering click on 'Tick' to save the record. Click on the 'Plus' again to add further breaks. Any number of breaks for the frame can be entered in this way.
